Jim,

I would like to take this opportunity to express to you our pleasure in working with your crew on the DEN-DAS project at DIA. Johan has extensive knowledge of products and processes that are being used to complete the job. His ability to direct the crew to place and finish the work in the most proficient and professional manner is most welcome. The workmanship is such that the finished product is easily recognized as a well done and professional. At a glance, the finish and quality is easily distinguished as top quality. It is also my pleasure to say that the crew needs very little outside supervision. They work well together and take direction from contractors with a “can do” attitude.

I look forward to a continued relationship with your company and the pleasure of working with such an amazing crew who work in such a professional manner.

Sincerely,  
Chuck Lujan, Superintendent
